Japanese World Certification Exam

Literal Translation

On December 3rd students studying at Kanji Camp took a world recognized assessment for individual language competency. Two, JSP students and three, Kanji Club students went by car with their families to this year's Chicago test center. KC Students ranged in age from 14 to adult. Three Japanese instructors also surprised the students with their supportive presence at the event. Above are a few snapshots that were captured.

Compared to this year, we already know next years the number of students who will be challenging the test will at least double from our programs. So please look forward to next years classroom field trip as KC students challenge even higher levels of fluency. *Field Trip!*
